

Dear friend,

14.04.2025

How are you and your family, I hope everything is fine by the grace of God.

I am writing this letter to inform you that I am finally graduating on 25/04/2025, after a long period of hard work, your support and blessings of our congregation. I am grateful to all my congregation, founder, sisters of our congregation and specially you who really played an important role in helping us to reach the present state. I have mixed feelings at this moment. Thank you for your sacrifice and help which contributed to our reaching this important step in our mission. On our graduation day we will have a solemn mass thanking God for blessing us with his knowledge and wisdom and for preparing us to use as his instruments in healing ministry. Followed by a program where we will be felicitated with our degree. Then we all will be enjoying a sumptuous meal all together. I can't imagine time flew so fast and time came to get out of the best and face challenges that is on our way. But with God nothing is impossible. When I doubt on my abilities he is there telling me when I am with you why do you fear. And he remains faithful to his promises and thine will be done.

Apart from my studies I would also like to share some of the new hobbies that I have inculcated even life being so busy is composing hymns and tuning it. I feel when life is so busy and I get stressed and frustrated sometimes I involve in all these things so that I may enjoy everything without feeling the burden.

I being also a religious sister and also being in medical field everything appears to be a miracle. The cases I see and they get treated, small things I do for them and they get healed all reminds me of God's immense love for his humankind. I experience his love each day through his people. When there are difficulties patients and their attenders ask us to pray for them and they believe that things get better and sometimes it happens. When other time it doesn't happen great peace reigns in those families and face tough situations. All these strengthen my faith in God. And me being in this particular

congregation reminds me of mother Mary. Whenever things don't happen i remember that mother Mary has greater power to change the mind of her beloved son. So i take her aid.

I also sometime remember how God has sent angels like you to help me out and the humanity as a whole. I would assure you that I would work hard so that god's people would be benefited by the studies I have received and that your hard work may be rewarded through abundant blessings from God.

I also would like to invite you all for my final profession. As I am telling complete yes to the lord to work in his vineyard.

After my final profession I will be working as rural doctor in one of the villages in Mysore and will be serving the people as junior doctor. I am very grateful to you for being a part for this success.

How can I thank u enough, how can I praise you enough for all that u have been and for all that you have done.

My sincere prayers are that you and your family may be happy and joyful, may God be your constant support. You may be blessed with everything and may you be victorious. Also I wish happy Easter in advance.

Thank you,

Yours faithfully,

Sr. Geswine
